01 · THE MARK

A report, held in focus.

The pin marks where on campus something happened. Inside it, a dot and a stem make a person and the letter i: the student who spoke up. Four amber brackets frame the issue like a camera finding focus.

Clear space. Keep at least the width of the pin's head circle free on every side of the mark.

Minimum size. 32 px on screen. Below that, drop the brackets and use the pin alone.

Never. Recolor the pin, stretch the mark, or place it on busy photos.
